SULTAN CITY COUNCIL
AGENDA ITEM COVER SHEET

ITEM NO: A-6

DATE: August 23, 2007

SUBJECT: Blue Ribbon Citizen Advisory Panel Appointments

CONTACT PERSON: Deborah Knight, City Administrator

ISSUE:

The issue before the Council is to review the Council subcommittee recommendation and appoint members to the Blue Ribbon Citizen Advisory Panel.

STAFF RECOMMENDATION

Review the Council subcommittee recommendation and appoint members to the Blue Ribbon Citizen Advisory Panel.

SUBCOMMITTEE RECOMMENDATION:

Following is the Council subcommittee proposed composition of the Blue Ribbon CAP for the Council's consideration. The applicants for the CAP are placed in the category types approved by the Council. The Council may review the list and make changes prior to making final appointments.

- 2 - Sultan's Business community
    - Traci Hoenstein
    - Donna Marshall
- 2 - Current land developers
    - Matt Anderson
    - Vacant – continue to seek applicants
- 3 - "Regular" citizens (can/should include at least one citizen who resides outside of Sultan but who is directly impacted by its actions and decisions)
    - Tony Beedle – city resident
    - Jeffrey Beeler – city resident/president of HOA
    - Loretta Storm – civic/taxpayer advocate

- 2 to 3 - Sultan "Public Service" agency members; i.e., one from FD5, one from the library, school, VOA, etc.
    - Jackie Personeus (library)
    - Steven Wright – city resident/King County Sheriff
- 1 – Planning Board Member
    - Charles Van Pelt
- 1 - Council Member
    - Derek Boyd
- 1 - City staff member in an advisory capacity only (this may change, depending upon the subject matter being discussed)

Alternate members: Just as with juries, where alternates are appointed and attend the entire process, there should also be 2-3 non-voting commission/committee alternates who will provide continuity (when a "regular" commission/committee member cannot attend a meeting -- i.e., can fill them in on what occurred -- or whose life or business forces them to drop out)

- Burl Champeaux – city resident
- Jim Flower (Council alternate)

BACKGROUND:

The City Council approved forming a Blue Ribbon Citizens Advisory Panel to evaluate long-term solutions to the City's General Fund budget crisis.

Although, the City Council has made necessary decisions to balance the General Fund budget in the short-term (4 months), there are fundamental problems with the General Fund that require long-term solutions (12 to 24 months).

The City Council is seeking the support of community members to serve on Commission in order to evaluate alternatives and prepare recommendations. The goal is to have the Commission provide alternatives and recommendations to inform the Council's 2008 budget process. The 2008 budget will be adopted by the City Council in December 2007.

The City received 11 applications for the Blue Ribbon Commission:

1. Matt Anderson– local developer
2. Tony Beedle – city resident
3. Jeffrey Beeler – city resident/president of HOA
4. Burl Champeaux – city resident

5. Josie Fallgatter – resident Sultan UGA
6. Traci Hoenstein – city resident/Sultan business owner
7. Donna Marshall – city resident/VP Coastal Community Bank
8. Jackie Personeus – Sultan library – branch manager
9. Loretta Storm – civic/taxpayer advocate
10. Charles Van Pelt – board member Sultan library, Sultan School Board and Sultan Planning Board
11. Steve Wright – city resident
12. Bart Dalmasso – city resident (submitted application on August 16, 2007)

DISCUSSION:

The City Council has the responsibility to review the applications and make a appointments. Members of the Blue Ribbon Citizens Advisory Panel will need to come together quickly as an effective team in order to provide meaningful recommendations to the City Council before the end of 2007.

The City received only one land developer application. The City Council subcommittee recommends continuing to seek an applicant to fill the position.

Team Composition

A well-rounded team includes a mix of people and skills. The team should include:

- some individuals who intimately understand the current process
- some individuals who actively use the process and work closely with the City
- some technical wizards
- some individuals who are completely objective toward the process and outcome (consultants sometimes fall into this category)
- customers of the process (when possible) and suppliers (those people who are involved with the process at the boundaries)
- some individuals who are not familiar with the process (someone who brings a fresh perspective and outlook to the team)

Team Selection Criteria

The City needs the "best and brightest" on to serve on the CAP, but even they must work well together for the project to succeed. When selecting team members, make sure that they are:

1. creative and open minded
2. good team players
3. well respected among peers, stakeholders, and other business leaders

Team Size Considerations

The recommended size for teams is 3 to 12 members. Smaller teams (3 or 4 members) work faster and tend to produce results more quickly. Teams greater than 7 or 8 members require additional facilitation and often require subteams to be formed in order for the team to operate effectively.

The argument for larger teams is greater functional representation. This representation brings different business perspectives to the table, and a greater knowledge base. The trade-off is that larger teams move more slowly through the creative process, and, given resource constraints, the members are often part-time.

Since there are more than 8 members, City Council may recommend that the team select a small core team of three to four people to manage the overall project, and then divide into subteams consisting of 2 to 4 members each to handle specific tasks.

Team Meetings

City staff propose that the CAP meet two times per month between September 2007 and December 2007. The City Council may review the work completed by the CAP and determine whether to continue the CAP under the existing structure, reform the CAP with new members, or discontinue the CAP.

ALTERNATIVES:

1. Discuss the applications for the Blue Ribbon Citizen Advisory Panel and accept the Subcommittee's recommendation.

   This alternative will ensure that the CAP will be in place and active in early September to make recommendations to the City Council for the 2008 budget process.

2. Discuss the applications for the Blue Ribbon Citizen Advisory Panel and do not accept the Subcommittee's recommendation. Direct staff to areas of concern.

   This action implies that the Council has concerns regarding the applications and/or process and needs additional time and/or information prior to making a recommendation.

STAFF RECOMMENDATION:

Discuss the applications for and make appointments to the Blue Ribbon Citizen Advisory Panel.

Josie Fallgatter
[redacted]

August 3, 2007

Deborah Knight
City Administrator, City of Sultan
319 Main Street
Sultan, WA 98294

Dear Deborah,

Please accept this letter as my application to the City of Sultan Blue Ribbon Panel Citizen Advisory Panel.

I have lived in the Sultan urban growth area for almost 15 years. Though, I still own a small business which I operate from home, I am currently a full time student at Seattle University School of Law. I have a B.S. in Biology from Central Washington University. I am not a member of a Public Service Agency.

My technical, civic and professional accomplishments include:

- Board Member for the U.S. 2 Safety Coalition.
- Successfully challenged several erroneous city actions before the Central Puget Sound Growth Management Hearings Board.
- Former City of Sultan Planning Commissioner.

My special skills, training or experience related to this appointment include:

- Extensive experience in the construction industry; both residential and commercial.
- As a small business owner, I understand the challenges many local business owners face.
- As a former Planning Commissioner, I have broad background knowledge regarding the challenges Sultan has faced in the past and continues to face.
- Ability to read and understand a broad range of technical and scientific literature.

I am interested in serving on this panel because I believe my participation will help achieve my long-standing goal of assisting Sultan balance the competing and often conflicting responsibilities of promoting fiscally responsible and economically sustainable development, while striving to maintain quality of life and preserving the environment. To that end, I have already volunteered innumerable hours over the past seven years attempting to raise the level of professionalism with respect to Sultan's planning functions and adherence to legal mandates. Sultan is my home; I am invested in the community and am not yet ready to give up on making Sultan a better place to live.

There are four main contributions I would bring to this panel:

- An unmatched knowledge of Sultan's planning history and planning documents.
- An understanding of the various regulatory frameworks within which Sultan must operate.
- An ability to think critically and analyze complex problems to synthesize appropriate solutions.
- An ethical and open mind; not motivated by personal gain, or the pleas of the few over the greater good of the community as a whole.

Thank you for your consideration,

A-5

ATTACHMENT:
LORETTA STORM'S APPLICATION TO
SULTAN'SBLUE RIBBON CITIZEN ADVISORY PANEL

Please list technical, civic or professional accomplishments/honors:

Sultan-related only:

I have operated the ittakesgrit.org since July 4, 2000, a website that has published (virtually on a daily basis) current civic issues and news, as well as making available extensive archives of Sultan documents and audio of most council meetings and hearings as well as transcriptions.

Additionally, I have served on the following organizations:

- Sultan Library board member (term expires Dec., 2007)
- Secretary/Officer of the U. S. 2 Safety Coalition
- Awarded special recognition from Snohomish County's DUI Taskforce (2007) for US 2 Safety Coalition contributions (Shared award with Chairman Fred Walser and Vice-Chairman Donnetta Walser)

Re General Professional/Business Expertise & Background:

- Small business owner in downtown Seattle from Feb. 1995 to spring of 2000; relocated that same business to my home in Sultan April 2000, successfully servicing all Seattle customers from Sultan until December 31, 2006.
- Freddie Mac employee for five years: First as the Administrative Assistant to their Financial Research & Development team; then served as Executive Assistant to the Chief Administrative Officer, and later, as Exec. Asst. to their Chief Financial Officer (now-president Leland Brendsel)
- Majority of my professional experience has been related to marketing, PR and economic development.

Please list special skills, training or experience related to this appointment:

Experience and knowledge gained through my civic/taxpayer advocacy activities as co-founder of G.R.I.T. (Governmental Responsibility, Integrity and Truth).

Attendance at most council meetings, hearings and workshops (including budgeting workshops), many Planning Commission and Planning Board meetings and hearings, town meetings; knowledge of Sultan's Comprehensive Plan, the GMA, the SMC (Sultan Codes) and ongoing participation in Sultan's land use/plat application processes. Extensive knowledge of Sultan politics and government.

A-10

Please describe why you want to serve on the panel:

To demonstrate through action one of my life's most strongly-held philosophies: That citizen responsibility only begins at the ballot box. I believe the experience and perspective I've gained since early 2000 watching and participating in Sultan politics and government would bring a unique perspective to this Panel. In short, I am hoping to be able to give something back to the Sultan community.

Please list contributions you could make if selected to this panel:

Other than attending every meeting, researching alternatives by which to achieve Sultan's shorter-range financial viability and long-term financial success, staying open to all perspectives which will contribute to that success, and attempting to craft new and creative solutions, I'm not certain what real contributions I can/will be able to make until selected for the task (or as an alternate).
