TOTAL TO DATE			$9,630,280		$83,022	

- Note: Council directed staff to apply to CDBG for 2nd Street sidewalks as well as 1st St. Sidewalks and Main Street Preservation. At that time, the City's intention was to apply for "Preservation" of 2nd Street sidewalks which was an eligible project, not required to be on an arterial street. When Snohomish County Public Works came to Sultan to evaluate the proposed projects, it was determined that the sidewalks on 2nd Street needed to be totally re-constructed, thus making the project ineligible. Sidewalk Reconstruction Projects must be on an arterial street. Thus, the 2nd Street sidewalk application needed to be abandoned.
