SUBMITTAL CHECKLIST #7 – FIRE ALARM

A fire alarm permit is required to when constructing a residential, commercial, or industrial building and may be required when modifying an existing building. Application for a fire alarm building permit will triggers a plan review by experts the local fire district to ensure that construction as shown in the plans will be safe for its intended use, particularly human occupancy.

Certain minor or temporary construction does not may not require a fire alarm permit. The permit assistant can help you determine if your particular submittal does not require a fire alarm permit.

Items listed in the application requirements section are needed to turn in an application. Applications will be accepted by staff at the front counter.

If all items are submitted at the front counter, your application is complete under RCW 36.070B.070, but if items are missing, your application will not be accepted.

Applicant: Please check the “Applicant” boxes below when each item is complete and ready for review.
